

## Car Seat Fit Checker

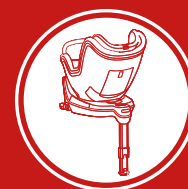

We've created this handy guide for you to check that your My Babiie car seat will fit in your car. It's very important to ensure your car is compatible with your car seat, as a badly fitting car seat can compromise the safety of the seat.

Please see the below list of vehicles for installation with ISOFIX. This car seat can be installed in all vehicles that have an ISOFIX system. Please also check the specifications on this in your own vehicle manual.

Do not install the car seat if there is a storage compartment below the support leg.
